⊘ API Supermercado has successfully been registered.

Registration Details

Thank you for registering your application! To avoid any errors during implementation, we recommend that you review the following app registration details before continuing.

OAuth2

When making an OAuth2 access token request, your client_id and client_secret are required in the authorization header. You must use one of the following redirect URIs when authenticating a customer using the Authorization Code grant type.

⚠ Your client_secret can only be accessed by request once you click Continue. Select the print icon to print your app details and secret to pdf.

Name	Details
client_id	apisupermercado-9b2bd5cd2f47ec8a946efa5dd4082478340091760943299 6602
client_secret	**Z0GaNKMVE3-WOzLz2I7UQVl5uNOiM8f5Ik6VcWUh** ⚠
redirect_uri	

Permission

Your application is now granted access to the following APIs. When requesting an OAuth2 access token, you must provide the scopes associated with the registered API you need to access.

API	Scopes
Cart (Public) - Certification	cart.basic:write
Locations (Public) - Certification	
Profile (Public) - Certification	profile.compact
Products (Public) - Certification	product.compact

Your application now also has access to the following grant types and additional scopes.

Name	Details	
Grant Type	authorization_code, client_credentials, refresh_token	
Other Scopes ⓘ		

App Details

Your application is now registered with the following details.

Name	Details
App Name	API Supermercado
App Description	We are going to use this API to make a web page for a supermarket. What we want is to show the products by categories, and put a cart so that people can buy the products.
